

BAR ROOM BLUES

X Brothers, Brain Surgeons

Co-writer: none

& other info: Alternate title on Brain Surgeons Beach Party CD: Pissin Away the Summer

**In the backroom bar
It's just the local dive
A maverick surfer shooting pool
And the Stones on the box singing *Play with Fire*. Yeah!**

**Come on down
Come on down
All your friends will be coming around
Happy times are getting near
Got to get myself a beer.
And don't you try and tell ME
"You gotta get out of here"
Just wasted and weaving before the night it through
Just pissin' away the summer try-na forget you.
Just pissin away the summer try-na forget you.**

**The band starts rocking
About a half past nine
Getting a buzz as the night moves on
You're forgettin about those old hard times. Sing it!**

Chorus

Solos

***Bridge*
You might see some old friends
And laugh the night away
Talking about those girls from school
They'd tease but you'll never get laid. Sing it!**

Chorus
